

SIZING & SPECIAL LENGTHS

STEPS FOR DETERMINING SIZE

- STEP ONE:** Have the bride stand on a hard floor or low-pile carpet looking straight forward with her back to the mirror, as you measure, view the tape in the mirror to ensure it is level across her back. Hold the tape taught (but not tight); for best results measure the bride in her underwear.
- STEP TWO:** We recommend that one person measures (twice for accuracy) and a second person records the bride's Bust, Waist, Hip and length measurements then compares to the Maggie Sottero Designs Size Chart.
- STEP THREE:** If a bride's measurements fall between sizes, it is best to order the largest size. Ballgowns may be an exception—if the hip measurement only matches the largest size, and you may order the smaller size.

INSTRUCTIONS

- BUST** Hold the measuring tape straight around the fullest part of the bust. Do not pull the tape too tight.
- WAIST** Measure the "natural waist" or the smallest part of the torso; note the bride's fit preferences: tight or relaxed.
- HIPS** Measure the widest area of the hip, consider how the bride's body shape will impact fit points.

MEASURE FOR LENGTH

Sheath, Slim Line, Bias-Cut Gowns	45 ½" - 46" (115 - 117 cm.)	<i>Measure for length from natural waist to floor; adjust for shoe height and petticoat preference. Please note, in the process of manufacturing a ready-made gown, the length may vary 1" (3 cm.) in either direction.</i>
A-line	46 ½" - 47" (118 - 120 cm.)	
Full A-line, Pick-up Skirts, Fit & Flares	47 ½" - 48" (120 - 122 cm.)	
Ballgowns	48 ½" - 49" (123 - 125 cm.)	

SPECIAL LENGTH OPTIONS

Petite (3FS)	Gown length is 3" (8 cm.) shorter (in the front of the gown only) than standard length. A petite length gown will work for most brides by adjusting her shoe height.
5" Front Shorter (5FS)	Gown length is 5" (13 cm.) shorter (front of the gown only) than standard length.
3" Front Longer (3FL)	Gown length is 3" (8 cm.) longer (front of the gown only) than standard length
5" Front Longer (5FL)	Gown length is 5" (13 cm.) longer (front of the gown only) than standard length.

**Special Length pricing varies by label, please view pricing on the Retailer Portal.
No cancellations are accepted on special length gowns.**

With the introduction of our Personalize It! Program, trains can now be extended in six-inch increments, up to 36" (length limitations are determined by style), and gowns may be ordered without a train. For pricing and details, please view the Retailer Portal for each style. When ordering a special length gown or extended train, please confirm that your sample is measuring to our "standard lengths" and adjust your length order accordingly.

DETACHED HEM LACE (DL) OPTIONS & COST

Detached Hem Lace (DL) is available to order with select styles for ease and convenience in customizing the bride's hem length. Please refer to the Retailer Portal for availability. Detached Lace arrives gently basted in place from side seam to side seam; allowing a seamstress to easily "detach" and adjust the front lace, while minimizing stitch work on the gown's train.

Detached hem lace is not available on special-length gowns.

* PRICES AND OPTIONS ARE SUBJECT TO CHANGE WITHOUT NOTICE, ALL MAGGIE SOTTERO GOWNS CAN HAVE A LENGTH VARIANCE OF UP TO 1"

NOTICE: Please use this measurement chart as a guideline to assist in determining the most appropriate size to order. Consideration should be given as to whether the bride would prefer a “firmer” or a “more relaxed” fit. It should also be noted that not all brides will proportionally follow our standard measurement chart. We suggest in this case to evaluate the style’s “fit points” and order accordingly, e.g. a bride’s hip measurements may be of little consequence when ordering a style with a full or wide A-line skirt, but may be of particular importance with a straight column styled skirt. Maggie Sottero Designs is renowned in the bridal industry for a superb fit. However, some alterations may be necessary to achieve an individual custom fit.
